Kalwall's Facebook eNews

December 2010

If you haven't been following us on [facebook.com/Kalwall](https://www.facebook.com/Kalwall), here's some news you might have missed...

Kalwall strategic partner Span Systems, Inc., another of the group of Daylighting/Sustainable Architectural Products sharing technologies with Kalwall Corporation, continues to fabricate and erect fabric tension structures around the world. In nearby Vermont, the Montshire Museum made the local TV news!

Kalwall was a winner of the Environmental Design + Construction (ED+C) and Sustainable Facility's third annual Readers' Choice Awards competition. Recognition was given out at the Greenbuild Conference and Expo in Chicago on November 16. The contest gave readers of both publications the opportunity to vote for the crème de la crème of green building products that best combine sustainable attributes with ease of use and installation. RCA 2010 Winner Daylighting: (Tie) Kalwall Corporation - Daylight Modeling/Simulation.

Kalwall is driven with world-class daylighting. The Kalwall diffused daylighting system is lighting up the world's largest Audi showroom. Wilkinson Eyre architects' design features translucent cladding as a major feature of this state-of-the-art architectural design. The

 West London building presents a stunning image by day and emits an ethereal glow by night. The translucent properties of Kalwall fill the space with museum-quality daylighting™. [More](#) in *Architect News*.

 Kalwall is proud to be a supporting Gold Partner of The American Institute of Architects Committee on Architecture for Education (CAE). The CAE connects architects and allied professionals interested in designing, building, and using superior educational, cultural, and recreational facilities. [More](#)
